Memorandum

On 5th Oct/96 the Revd J H Walton wrote to Govt giving particulars regarding the progress of the London Mission Institution, Bangalore, during the past several years and pointed out that the income of the School was found insufficient to meet present requirements, and applied for an increase to the present grant-in-aid of Rs 200 from Govt which had stood at that figure for several years past

2 The Inspector Generalof Education to whom the matter was referred for opinion was not in favor of an increased grant (videhis letter No 3876-938 dated 19th Novr/96) He also remarked that the Wesleyan Mission Schools at Bangalore and Mysore would also require similar treatment

3 Upon a careful consideration of the whole question the First Councillor was of opinion that the Govt grant-in-aid to the London Mission Institution might be raised to Rs 250 per mensem, and that the question of increasing the grants of the Wesleyan Mission Schools tBangalore and Mysore might be taken up

when applications actually came from
then

4 The papers were then sub-
mitted tothe Dewan who wished to have
information whether our grants to these ~~three institution~~
3 institutions were too small compared with
similar grants to similar institutions
in Madras and Bombay, taking care to
compare only institutions under exactly
similar conditions If our grants were
found to be too low, the Dewan thought
that they might be increased, but that the
increase must be for all the three
institutions, between which, as among
themselves, there was little ground
for any differentiation

5 The information desired by
the Dewan was called for from the
I G of Edn on 23/4/97, but unfortu-
nately both he and this Office lost
sight of the reference A reminder
was however sent on 23d ult to which ~~Mr Bhabha has given~~
Mr Bhabha has given an unsatisfactory
reply, stating that there are no insti-
tutions in Madras or Bombay under
exactly similar conditions to those of
the London Mission High School, that
the grant-in-aid Code of each Province is peculiar
to it, and that therefore the conditions
under which grants are given in different
Provinces are not the same
It seems necessary now to ask the
I G again to give the required information
regarding Mission Schools such as those

at Bellary, Salem and Coimbatore which are all institutions similar in their circumstances to those ~~now under consideration~~ now under consideration. A draft is submitted

6 The question of raising the rates of fees in these Schools which is one of the points dealt with in this correspondence may perhaps be put off till after the disappearance of the Plague

---

7 The above shows how the general question of permanently increasing the grants-in-aid to the London and Wesleyan Mission Schools now stands The following two recently received urgent applications are submitted for orders

Ed F 46 98-99
47 98 99

8 On the 6th instant the Rev J P Rice, Principal of the London Mission High School, Bangalore, sent to this office a copy of a communication addressed by him to the Inspr Genl of Education reporting that their attendance at the School had considerably fallen off in consequence of the spread of the Plague causing a great loss of income from fees and requesting that the present grant-in-aid of Rs. 200 be temporarily increased by Rs. 200 per mensem until the present difficulty was

tided over The Inspr Genl's recommend-
ation the eon has been since received
He subrits, the above offr as also a sirilar application from
the Princi-al of the Wesley n Missio
High School, Bargaloie, asting for a tem-
porary additional g ant of Rs 150 per
mensem (Rs 200 being the present grant),
and he suggests that duri g the , evalenc
of the plague epid mic one-half the defic
in the mount of monthly fees from the
month of Septr/98, when compared with the
mount of fees collected in the correspond-
ing month of th last preceding year, may
be granted as a provisional increase of
monthly grant up to the end of the present
official year, the continuance of the
grant after that date being reserved for
consideration at that time Mr Bhabha
makes this suggestion on the principle
th t the net cost of the institution
should be shared equally by the Govt
nd the Mission concerned Under this
arrangement the Princip l of the School
will have to send to the Inspr Genl, at the
commencement of each month commencing
from Septr/98, a statement showing the
fees collected in th t month and in the
corresponding month of the previous year,
and the Insp General will pass for payment
to the Institution an amount equal to
half the difference

9 The recomendation seems fair
and may, it is submitted, be sanctioned
It would perhaps be well to provide in
the order that the additional grant is
sanctioned on the understanding that the
remaining h lf of the deficit is madegood

by the Missions concerned and that the existing staff of teachers is maintained without any change so as to inspire confidence in the minds of those concerned

Subject Increase of grant to the London Mission High School Bangalore

Second Councellor's remarks

"Reverend Rice Saw me this morning, left these* papers with me and bitterly complained of paucity of funds to keep the London Mission School going."

"Kindly let me See the file on the Subject with a note as any reference pending?"

(Intd) C S
4/11/13

The Principal of the London Mission High School has been applying for an increase of grant Since 1898 but his requests were not sanctioned by Govt, chiefly owing to want of funds

* 1) a Memo
2) Report of the L M High School for 1902-03
3) "Bangalore Bulletin"
Dr 7/10/13

7

Last year the D of P&E included the London Museum High School in the list of Schools recommended for increases of grants and proposed an increase of Rs 100 to the present monthly grant of Rs 200 in aid of the School (Vide D of P's letter $\frac{9154}{321}$ of 21/4/03 No 1 of list) He however Stated in the "Remarks Column" of the same list as follows.—

Flag A

"If higher rates of fees Recommended by me are sanctioned the grant may be increased by Rs 50 only If not I recommend an increase of Rs 100."

The question of the revision of the Scale of fees in all Schools in Mysore is now under circulation

Govt did not sanction the D of P's recommendation in the case of the London Museum High School and two other Schools but observed that a separate report containing

Flag B		
Convent Eng Girls School	Addl grant proposed	
Kolar Mission Industrial School	35 p/m	
Kolar	25.	

more detailed information Re garding these 3 Schools should be submitted for the Considera-tion and orders of Govt

The I Gl has not yet Sub-mitted the separate Report called for but requests in his present letter No $\frac{3808}{116}$ dt 31/10/03 (Submitted herewith for orders) to be informed on what points more detailed information is required by Govt than has already been given in

Flag A . his letter No 9154/321 dt 21/4/03 and in the Statement accompanying it.

Submitted for orders with References to Flag

Flag C

Flag A

Govt Order No 4 255-6 El dt 21st July 1903 was issued in accordance with the 2nd Councillor's remarks dt 6/6/03 at the back of the Office Note marked with Flag C

It will however be seen that in his letter No $\frac{9154}{321}$ dt 21/4/03, the Insp.r General

of Education has given at some length his reasons for recommending an increase of grant to the London Mission High School perhaps the point may now be re-considered.

The recommendations in regard to the two other schools may also perhaps be now considered finally as the Supt. Grants Reasons are already given in his letter of the 21 April 1903 refd to above

Have you upto date showing 11/11/03
the details of all the grants to English High Schools —
1 Strength of School (2) Income from fees
3 Income from Mission or other sources &
4 Govt Grant &c &c, as per last year

16/11/3

A statement containing the above information is submitted

With regard to the London Mission Bangalore High School the latest information is available from the copy of the Report for 1902 in the file which is as follows —

1) Strength — 460 Rs.
2) Income from fees — 5021
3) Govt grant — 2400
4) Income from Mission Sources 6000

Subd 17/11/3

The strength is nearly the same ... in the two Wesleyan schools, and the grant is more. Perhaps the School authorities are more liberal to their Teaching Staff. If we give this additional grant, it is very likely that we shall have a similar application from the Wesleyan Mission, which it will not be easy to treat differently.

18/11/3

The Director of Education

This requires further investigation. I shall go into the question sometime next month in consultation with the Director.

25/11/03

I have gone into the question carefully & have also discussed it with Mr Bhabha. It is now 37 years since the present grant of Rs 200 was sanctioned. The School has since considerably improved in importance and efficiency. It is on the high school standard, & it was [illegible]

relief very badly. Since the first
observance of Plague in Bangalore
in 1898 observations have from
time to time been made for an
additional grant. To a temporary grant
~~relief~~, these were objections based
upon the fear of creating an
inconvenient precedent. The
reasonableness of the prayer for
a permanent relief was never
denied by Govt. Owing however to
our financial difficulties & the
uncertainty of the right to
suggest a readjustment, Govt
was more than once obliged to
decline compliance with the
observations. The Rule has now
again observance the Govt-
with what appears to me to
be a very strong case. The
Bombay Subcommittee the request.
The famine & other excellent
administration reports has hung heavy
of material aid & Government would be important
& would recommend that "—time to be now
some small relief be given to the people.
Hence effect from 1st July/04 due provision
being an allotted to be made for it in the Budget for
the addition of Rs 50 lacs 1904/05.
Sufficient until it is relieved the
Subbalemented to some extent by
the enhanced rate of fees
recently sanctioned. This will enable

the Board to take over the
embarrassments and, at one
time without interruption or
deterioration the good work
which it has been doing for
decades past. In making this
suggestion I have not overlooked
the fact that the other two institutions
High Schools in the State are
not entitled to similar
similar treatment. Applications
have been received from them
may be dealt with on their
own merits. At all events, a promise
that all the 3 institutions deserve
to be treated alike. The total
increase required during the next 3 years
Oxford in my opinion is by
no means excessive particularly
the good work

C. Jenkins

Memorandum

Showing the need of an increase in the Grant in Aid for the London Mission High School, Bangalore

The School 30 years ago

1 When I arrived in Bangalore thirty years ago, in January 1867, the present High School building consisted of one room and the number of pupils was about 90

2 It was associated with two other schools called Branch Schools, one in the Cantonment and the other in Kasur both teaching up to the Standard of the Middle School These two branches together contained about 230 lads

No charge for 3 years

3 For the first three years after my arrival I had no independent control of these schools, but was merely allowed to teach in them I have no record of the funds of the School during that period

I take charge of High School

4 I received charge of the present High School in January 1870. At that time it contained about 130 boys

And of the Branches

5 The branch schools were not handed over to my charge until 4 years later, at which time they contained together about 200 boys

The Grant in aid divided

6 Until May 1874 the Grant-in-Aid was divided Rs 100 per mensem being devoted to the High School under my charge, and the other Rs 100 per mensem being apportioned to the Branches

Consolidated

7 When I received entire charge, the grant of Rs 200 per mensem was consolidated and the accounts kept as for a single Institution

The Branches are closed in 1890

8 The Branch Schools were closed at the end of 1890 They virtually collapsed owing to the establishment of several opposition "mushroom" schools in the town and suburbs The strength of the High School suffered somewhat from the same influence for a time until the opposition schools died a natural death

Development of High School

9 Until the year 1883 the High School developed slowly, but did excellent work as the records of the Madras University Examinations show Since 1883 the High School has developed very rapidly and is still growing in every respect

3 Sources of Income

10 The Income of the School is derived from three Sources 1 The Fees, 2 A Grant-in-aid from the Mysore Government, 3 A small Annual Grant from the London Missionary Society

Fees

11 The Fees at present average about Rs 625 a month, and it is estimated that the fees of the present year will amount to about Rs 7500

Grant-in-aid

12 The Government Grant-in-aid is Rs 2400 per annum, paid at the rate of Rs 200 a month I have no knowledge as to when this grant was first sanctioned It has existed as long as I have had any connection with the accounts of the School It thus remains the same as it was 30 years ago, although the number of pupils in the High School and the cost of establishment are eight times as great as they were when I first came to the School

L M S Grant

13 The London Mission Grant until last year was Rs 1000 per annum At the beginning of this year the grant was reduced to Rs 875 per annum, yielding Rs 72-14-8 a month No increase of this grant can be expected

Govt Scholarships

14 Eight pupils, Polegārs and Muhammedans, receive Scholarships from Government, aggregating to Rs 29 per mensem But this matter has nothing whatever to do with the funds of the School, and is of no advantage to any but the Scholars themselves. No mention should have been made of this in connection with an application for an increased Grant-in-Aid, although it was thus alluded to by Mr Bhabha to make our receipts from the State appear larger than they are

Items of Expenditure

15 The chief item of expenditure in any School is the Cost of Teaching Staff and other employees Other items are — Repairs, Furniture, Class Books, Library, Stationery, Printing, Prizes, Chemicals and Science Apparatus, Gymnastics, Cricket & Foot Ball, and many little contingencies

Salaries

16 The salaries of the masters, munshis, writer, and servants of this High School at present amount to Rs 736½ per mensem Accordingly it is estimated that for the current year the Teaching Staff, etc will cost Rs 8838

17 My own personal salary does not come out of the funds of the School, as I am supported direct from home I am still considered the "Principal" of the School, though a Head Master is employed at Rs 120 per mensem, and of recent years I have done very little of actual teaching in the School Accordingly it would be more appropriate to regard me as "Manager"

Other expenses

18 The other items of expenditure vary considerably year by year At the present time they may be estimated to aggregate to about Rs 2000 during the year For the last 4 years they have been unusually heavy, amounting to Rs 3000 and even Rs 4000 New furniture, the Library, and Science apparatus, have seriously swelled the totals

Expenses equal Income

19 The present Income just about covers the present rate of expenditure and leaves no margin for a very much needed development of the Teaching Staff

Need of more funds

20 An increase of funds at my disposal is now urgently needful on two grounds — 1 The comparatively low rate of salaries paid to the masters, 2 The necessity for increasing the number of the staff

The Masters poorly paid

21 The salaries at present paid to the masters are shown in schedule C, herewith appended If a comparison is made of these rates with those of any Government

High School. It will be found that our rates of salaries are lower, on the whole, than those obtaining in the Govt. service. I am able to make this comparison only with the 5 small Provincial High Schools, viz Chikmagalur, Chitaldroog, Hassan, Kolar, and Tumkur, each containing only about 200 boys, the Government having no large school of equal importance with ours.

22 I gather the following information from 'Proceedings of Government, dated 25th January 1894 - C No 278-93" Adding the authorised increments up to date, the following table shows the monthly salaries of the several masters

Chikmagalur	Chitaldrug	Hassan	Kolar	Tumkur
160	280	240	200	280
80	100	100	100	70
70	80	80	70	50
			50	
34	46	50	46	46
30	~~42~~	35	30	46
30	30	30	30	30
24	30	30	30	30
			27	27

A fair comparison of the above table with my payments as indicated in Schedule C will show that my masters are poorly paid. In addition to which it should be considered that Bangalore is more expensive for living than country towns, and that Government Masters are entitled to pensions which my masters can never hope for.

Need of additional Masters

23 By far the most important consideration, however, is the size of my classes and their need of sub-division. A glance at Schedule B, showing the numbers of the pupils in each form, will be sufficient to justify me in saying that I have need of several additional masters.

24 It is generally understood that, for efficient teaching a class should not consist of more than about 30 pupils. If this principle were followed in my School, I should need to divide the VI^th^ Form into 3 classes, the V^th^ into 2,

the IV^th into 2, the III^rd into 3 instead of 2, and the II^nd Form also into 3 divisions instead of 2 as at present

25 Such a rearrangement would increase the number of classes by Six, and thus involve the employment of 6 additional masters for the highest classes of the School They would need to be men of more or less high attainments and qualifications, on salaries ranging from Rs 30 to Rs 100 per mensem. This would involve an addition to the expenditure of at least Rs 300 per mensem for additional masters, without any increase of existing salaries

26 The present staff of munshis is also inadequate for the teaching of the Vernacular subjects in the higher forms

Enlargement of building

27 Any division of Forms as described above will demand also an enlargement of the Building to provide additional Class-Rooms I am prepared to add new rooms as an upper storey, on the top of the oldest portion of the building, thus providing additional accommodation with a floor surface of 1900 square feet

Means of obtaining increased Funds

28 There are only two ways in which the Income of the School may be increased — 1 By raising the Scale of Fees, 2. By an increased Grant-in-Aid from the Mysore Government

Raising Rates of Fees

29 In order to provide an additional income of Rs 300 per mensem from Fees, it would be necessary to raise the Rates of Fees 50 per cent It is my opinion that the Scale of Fees should be raised throughout the whole Province In Mysore Province the Fees charged are very much lower than in the Madras Presidency

30 The present Scale of Fees was established in 1894 A Conference of Educational Officers was held in the Central College, Bangalore, in January 1894, to which the Managers of Mission Schools were invited The Scale of Fees then proposed was officially sanctioned by Government in February 1894

at the Office of the Education Secretary who had called the meeting 1893

31 In a letter from the Education Office, dated 25^th Dec^r 189

in reply to an application for an increased Grant-in-Aid, I am told — "If the Managers of the Wesleyan Mission and London Mission High Schools and Municipal English School agree to adopt higher rates of fees, Government will I believe adopt the same rates in the High School classes of the Central College" I submit that it is the duty of the Government Education Department to take the initiative It is absurd to expect that private schools like this should initiate such a change Even united action cannot be secured without the prestige of Government And without united action any independent attempt to raise the fees on the part of a Mission School would be suicidal. The Government has the power to authorise such a change in all Government Schools and to require that all Aided Schools should adopt the same rates

Request for an increased Grant-in-Aid.

32 Apart, however, from the question of an increase in the Scale of Fees, I would venture to urge the claims of the London Mission High School upon the notice of the Government of Mysore on the ground of the service and value it has been to the State for many years past, and also in consideration of the small cost to the State of the education here given to a very large number of Hindu youths Whilst, in the Government High Schools, education costs the State on an average about Rs 30 per head per annum, in this School the cost to the state is less than Rs 4 per head per annum, and I do not think the education here given is less efficient

33 The following shows the present proportion of cost borne by the three sources of income

Borne by the Government	Rs	2400
London Mission Society	Rs	6635
Fees	Rs	7500

To Secy

Rev Scallon spoke to me on the subject of the means which I was to adopt. I suggested that he should put every thing on an official basis. He has sent the means to me at the proper time & I have been to enclose it in cover addressed to Secy

Rev W had already applied to Mr Chatham for means of passage & was refused. He was asked first to take the instructions in the matter of saving the fees & to send the Schools of means the passage

This may be left to Secy's discretion to the Head of Ed. Any remarks he may make to me 27/10/96 CJ

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE,

No 3876/238 Mysore ~~Bangalore~~ 19th November 1896

From

H J BHABHA Esq

Inspector General of Education in Mysore,

To

The Secretary to the Government of Mysore
in the Revenue and General Depts,
Bangalore

SIR,

With reference to your docket No 5201/89 191 dated 3rd November 1896 forwarding for my opinion Mr Walton's memorandum dated 5th October 1896 showing the need of an increase in the grant-in-aid of the London Mission High School, Bangalore, I have the honour to inform you that I regret my inability to recommend an increase to the monthly grant of Rs 200 now given to the London Mission High School Bangalore for the following reasons

(1) A grant of Rs 100 a month was first sanctioned for the London Mission Institution in 1868-69. The London Mission authorities appear to have

distributed the grant between the London Mission Institution (subsequently called the London Mission High School), the London Mission Cantonment School and the London Mission Halsur School at the rates of 50, 30 and 20 respectively - The monthly grant was raised to Rs 200 in 1871-72 and divided between the three schools at the rates of 100, 50 and 50 respectively upto 1873-74, and at the rates of 100, 60 and 40 from 1874-75 to 1877-78. The above figures are taken from the annual reports of Public Instruction in Mysore How the monthly grant was distributed after 1877-78 upto 1890 when the two branch schools were closed is not known. From 1890 as Mr. Walton says in para 9 of his memo, the whole grant of Rs 200 was utilised by the London Mission for the High School, but no report appears to have been made by the Mission to Government to that effect Thus virtually the monthly grant-in-aid of the London Mission High School was raised from Rs 100 to 200 in 1890

(2) The total cost of establishment at present is shown to be Rs 736½ a month or Rs 8838 a year in statements A and C attached to Mr Walton's memo. In November 1894 the total monthly cost of establishment was Rs 617-8-0 Since that date some of the masters have been granted substantial promotions The present scale of pay I consider to be very fair It may be lower than that of the older district schools of the Province, but it is probably far more liberal than the scales of pay of the other two Mission High Schools of the Province. Moreover educated men as a rule require less pay to serve in Bangalore than in the district stations. Mr Walton himself takes little or no share in teaching and is fitly called Manager of the Institution He draws his whole pay from the Mission funds I believe as the head of the London Mission in the Province.

(3) Statement A shows that the annual cost of the present establishment is Rs 8838 In para 24 Mr Walton

says he requires six additional classes. From the figures given in Statement B the addition of two classes appears to be sufficient, for we have to consider the average daily attendance and not the number on the roll to judge of the number of sections or teachers required for each class. As only 84 per cent of the number on the roll are present every day, the VI and the IV classes may be divided into two sections. But unless the average daily attendance in a class exceeds 40 it need not be divided into sections. The addition of two teachers in the High School Department need not cost more than Rs 100 a month or 1200 a year This amount added to Rs 8838 makes a total Rs 10038 The present receipts of the school are

	Rs
Fees	7500
Government grant	2400
Mission Funds	875 (Para 13 of the Memo)
	Rs 10775

I do not know if the above amount of fees includes the admission fees which

should amount to about Rs 225 a year by
Even if it does, the aggregate Receipts
exceed the cost of establishment inclusive of the salaries of two additional 50
teachers by Rs 737. If the admission
fees are not included the excess will
be about Rs 1000 From this excess
the following charges may be met

	Rs
Contingencies - - -	300
Library - - - -	100
Prizes - - - -	150
Scientific apparatus -	100
	Rs 650

The balance may go towards cost of
new furniture and upkeep of building
It will be observed that while
Government contributes Rs 2400 a year,
the Mission contributes only Rs 875,
plus the cost if any, of the supervision
of Mr Walton Over the Government
High Schools it may be remarked there
is no other supervision than the general
supervision of the Department. I am
unable to understand how Mr Walton
makes out in the last para of his
memo that the Mission contributes
Rs 6635 a year when according to
para 17 no portion of his own pay is

debited to the school In para 15 Mr Walton mentions gymnastics Cricket and football contingencies which should be paid for from special fees collected from the boys

(4) What "the other items of expenditure" that come to Rs 2000 a year as stated by Mr Walton in his para 18, can be I do not know. When a school is once equipped with a library, with scientific and other apparatus and furniture, there are no heavy outlays from year to year for the same objects. Any large extensions of buildings are carried out in the case of mission institutions from mission funds, subscriptions and building grants sanctioned by Government for example a building grant of Rs 3000 was given to Mr Walton by Order No 3671-3 dated 22nd February 1887 Even for large outlays on scientific apparatus or libraries Government have sometimes sanctioned grants

(5) It seems to me that if the grant-in-aid of the London Mission High School is increased, there will be equally good or better reasons to increase the grants-in-aid of the Wesleyan Mission High School, Bangalore and especially of the Wesleyan High School in Mysore. The two High Schools in Bangalore have the advantage of levying higher fees in the Primary classes as they have been specially permitted to teach English in these classes, while in the Wesleyan Mission High School, Mysore

English is commenced after a boy passes the II Vernacular standard and the fees in the Vernacular classes are comparatively low

2 It seems to me that the school fees levied in Bangalore may be raised, not 50 per cent all round as Mr Walton suggests, but to rates approved of by the managers of all aided and Municipal schools It is true that in my letter No 4231 dated 25th December 1894 to Mr Walton I informed him in accordance with rule 9 published in Government Order C Nr 197-271 dated 24 January 1894 that the managers of the Wesleyan Mission and London Mission High schools and the Municipal English School in Bangalore may agree to adopt higher rates of fees. If Mr Walton finds it difficult to take the initiative and Government approve of the raising of fees, I shall have no objection to call a meeting of the Heads or Managers of the above schools and discuss with them the feasibility of raising the present scale of fees

3. With these remarks I beg to return Mr Walton's Memorandum.

I have the honor to be,
Sir
Your most obedient servant,

H J Bhabha

Subdt to Secy

This case has been attended to reply to the Insps remarks d 29/11/96

The question for discussion is the addl grant recd & applied for by Mr Walton for the Anglo Madras High School Bangalore

Ed 20/1/97

Secd Docket 9

20-1-97

The material mistake Mr Walton has committed is in endeavouring out of consideration the pay of the Manager Rev Mr Walton — Excluding the cost of the Teaching staff amounts to Rs 8838 — other items of expenditure allowed Total 10838 — Adding thereto the pay of Rev Walton regarding which a mistake the whole cost as stated in para 3, comes to Rs 16535 — The present Govt grant is of Rs 2400 — The School has been consistently developed the records clearly allude & that of the other Schools — The London Inspector has rated it the highest & for 3 years the Govt grant of Rs 2400 a share of the contribution towards the London Inspectors has been duly forwarded The strength is also duly & necessary The classes are

grant of Rs 50 a month from the Municipality from October 1896.

3 The Annual grant-in-aid of Bishop Cotton's Schools is Rs 8400 per mensem This amount is divided by the Manager in the proportion of Rs 4256 to the Boys' School and Rs 4144 to the Girls School

4 The Technical School maintained from Rai Bahadur Arcot Narrainswamy Mudaliar's Charities receives no grant-in-aid at present

5 St Andrew's and Bishop Cotton's Schools are purely European Schools, while St Joseph's College is in great part an European School The grants to European Schools are regulated by the Bengal Code for European Schools, which is now under revision. Bishop Cotton's Schools and St Joseph's College are moreover Boarding Schools though they admit day scholars. The principle that the amount of grant-in-aid paid by Government does not exceed the amount spent from the Manager's funds is adopted in the case of schools in the Bangalore Civil and Military Station. The same principle is defined in the old Mysore Grant-in-aid Rules (Paper No 1 (2a) in the file)

Inspector General of Education in Mysore

To

The Secretary to the Government of Mysore,
General and Revenue Departments,
Bangalore.

SIR

I have the honour to inform you that the attendance and fees of the London Mission High School Bangalore have greatly fallen off since August 1898 In July 1898 the number on the roll was 680 and the amount of fees collected was Rs 778 In July 1899 the number on the roll was 396 and the amount of fees collected was Rs 343 The average monthly fees from January to July 1899 are reported to Rs 325 The school establishment at present costs in spite of retrenchments Rs 676 a month exclusive of the pay of the Principal which is estimated at Rs 200 a month and of House rent for the building which is estimated at

I hope however that a monthly grant of Rs 250 will suffice and that the amount of fees collected will go on increasing in future if there is to be no recrudescence of Plague

2 The applications of the Principal for special grants on account of the losses caused by Plague were not granted by Government And his application for a permanent increase of monthly grant was received only last month It could not therefore be included in the budget. On account of the urgency of the case I recommend that the increase of Rs 600 a year may be granted from the General Savings of the Budget

I have the honour to be,

Bangalor

SIR,

I have the honour to forward herewith a copy of letter dated 4th March 1900, bearing this office Register No $\frac{100+5}{2077}$ from the Rev E P Rice Principal London Mission High School Bangalore and with reference to it to invite your attention to my letter No $\frac{3121}{115}$ dated 22nd September 1899 I recommend that for reasons given in my letter No $\frac{3121}{115}$ Government may sanction a monthly grant of Rs 250 from the 1st July 1901 for the London Mission High School

Sl no 8

I have the honour to be
Sir
Your most obedient servant,
H J Bhabha
Inspector General

Encl 65 & 20 80

Bangalore March 4 1901

20/a

From

Rev E P Rice,

Principal London Mission High School

Bangalore

To

The Inspector Generalof Education in Mysore

Dear Sir

1 In renewing the application made by myself and my predecessor for an increase of grant to the London Mission High School from Rs 200to at least Rs 250 per mensem I have the honour to request that as the principle of the increase has already been approved by the Mysore Government "out payment deferred until funds are available" the amount of the increase approved may be included in the Budget for the approaching official year

2 I also have the honour to request that as the finances of the school have been severely strained by the Plague and in spite of various economies the year has opened with an adverse balance of Rs 600 you will kindly renew the recommendation already made that the increase have effect from 1st July 1899 --either by the arrears being met out of the General Savings of the Budget or by their being included in the budget for the coming year

3 In support of the application now renewed I respectfully call your attention to the following facts -

facts –

a The school is, with possibly one exception, the oldest High School in the Province

b The Reportsof Public Instruction show that it has for a considerable number of years had the largest attendance of pupils of any High School in the Province, and yet that it has received from the State the least assistance per pupil of any High School

c The Reports of Public Instruction for the past four years show that the maintenance of the School effects an enormous saving to the State Funds, the Government Grant being only from 15% to 18% of the cost of Education The figures are as follow –

	Total cost per pupil			Cost to the State per pupil		
1895–6	25	13	10	3	13	8
1896–7	18	4	4	3	3	11
1897–8	20	4	11	3	8	4
1898–9	24	14	6	5	8	1

d The present grant was made more than 30 years ago when the school as comparatively small.

e The grant is considerably less than is given to similar schools in the adjoining Civil AND Military Station of Bargalore

f On the outbreak of Plague several teachers had to be dismissed, and all the others had to have their salaries reduced for six months,– sometimes as much as 50%

g Much needed improvements in the staff and in the building– improvements which had received the approval of the Government– have had to be deferred owing to the want of fuunds

These facts among others show that the school has a strong claim for that increased support from the State for which application is made

I have the honour to be

Sir

Your obedient servant

(signed-) E P Rice

With reference to para 1 of the Secretary's Docket No 14680 / Ed 505 of the 2nd instant, has the honour to inform that the Inspector General regrets his inability to find the money for the proposed increase of grant to the London Mission High School from the budget allotment of next year as the whole of the latter will have been appropriated.

2

x 5640.15

2 Letter No 3121/115 of 22-9-1899 was referred to in my letter No 8136/361 of 18 [illegible] 1901 as it gave full information on the subject. No other references were necessary, and there is nothing to summarise.

Sl. No 8

3 By Order No 2892/Ed 7 38-96 dated 23rd August 1900 the Inspector General was asked if the proposed increase of Grant could be met out of the sanctioned budget allotments by reappropriation. The Inspector General in his reply No 1992/110 dated 25th August 1900 represented his inability to show any savings in the sanctioned budget allotments from which the increase of Grant for the London Mission High School could be met by reappropriation.

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No 9154 Encls 1 / 321 Bangalore, 21 April 1903

From

H J BHABHA, ESQ, M A
Inspector General of Education in Mysore,

To

H V Nanjundayya Esq, M A Asst Secretary to the Government of Mysore, General & Revenue Departments

SIR

ED 6-02

In continuation of my letter No 8293-4/288 dated 21st March 1903 forwarding the ~~draft~~ revised State Funds Budget estimates for Education, I have the honour to submit a tabular statement of the increases of monthly grants recommended I have given in it fully the usual particulars and in the column of remarks I have stated the grounds for my recommendations I would add to the remarks made in the tabular statement

statement a few facts relating to the principal schools "for which increased grants have been recommended

2 The London Mission High School Bangalore has suffered heavily of late years Once there were more than 700 boys in the School. Plague has driven away most of the boys who came from the surrounding Madras Districts, and the new extensions of the city have scattered many of the boys. The location of St Joseph's College near the Madras Bank has also had the effect of intercepting boys who originally came from the Cantonment to the London Mission High School In addition to these causes, the low-ness of the fees charged in Government Schools has greatly handicapped the Managers of the London Mission High School who have to depend chiefly on the fee-income. More than once during recent years the staff has been reduced both

both in number and pay The School has been reduced almost to a languishing condition by these depressing causes the salaries paid to the teachers bear but a small proportion to the liberal salaries sanctioned by Government for teachers of the corresponding classes in the neighbouring Government institution At present the cost to the Mission exclusive of the Principals pay and sundry other items is Rs 46/4 while Government pay Rs 200 The principle regulating fixed monthly grants of large schools is that Government should contribute to the net cost as much as the agency that maintains them Under these circumstances I have recommended an increase of the monthly grant from Rs 200 to Rs 300 If however the increased rates of fees I have recommended are brought soon into force, the grant may be increased from Rs 200 to 250 only

3 The Private Kannada School at Gubbi maintained by Sanjappa Devaru
Lavanyashes

lampmakes chiefly from the low rates of fees prescribed by Government for Kannada schools. The school has 108 boys on its rolls but the average fee-income is only 6 Rs. The total receipts are Rs 26 including the monthly grant of Rs 20 It is impossible to pay seven teachers and a peon from this amount. The salaries given are most miserable. I have therefore recommended an increase of Rs 10 to the present grant which will not be excessive even when the higher rates of fees proposed by me are sanctioned

4 The Kolar Industrial School has been doing excellent work A European Mechanic is shortly expected from America I have therefore proposed a small increase of the monthly grant from Rs 70 to 100, which will be exclusive of Rs 25 given for scholarships

5 The total amount of increases

increases of Rents comes to Rs 192 a month or Rs 2304 a year, I request that Government may be pleased to sanction this amount.

I have the honour to be,

Sir

Your most obedient Servant,

H J Bhabha

Inspector General

Bangalore.

No 3807/96-97

Edn

SIR,

In continuation of para 2 of my letter No 9154/321 dated 21st April 1903 and the statement accompanying the letter, I have the honour to submit herewith copy of an application from the Rev E P Rice, Principal of London Mission High School, Bangalore in which he renews his request for an increased monthly grant of Rs 300. To what I have stated in para 2 of the letter quoted above I would add that the attendance of the London Mission School has of late rapidly recovered, the highest number on the roll during 1902-1903 being 509, and its progress as shown by the results of the last Matriculation Examination at which

16 pupils of the school passed has been satisfactory - The school appears to have regained its old vigour and prosperity except in the matter of financial resources, which do not permit of the additional expenditure that is necessary for the purposes mentioned in para 2 of the Principal's letter - Under these circumstances I beg to repeat my recommendation that the monthly grant may be increased from Rs 200 to 300 with effect from 1st July 1904 - But if the increased rates of fees recommended for the City of Bangalore in my letter No 6349/213 dated 21st January 1903 or those recommended in para 6 of my memorandum dated 3rd June 1901 submitted with my letter No 11063/493 dated 9th May 1901 are likely to be prescribed in the near future, the grant may be increased from Rs 200 to 250 only -

I have the honour to be,
Sir,
Your most obedient Servant,

H J Bhabha
Inspector General -

The correspondence read above relates to the grant of increases of aid to the marginally noted schools. The Director has applied for the consideration of Govt in connection with the budget estimates of the Edn Deptt for 1904-05. But the increases proposed were not sanctioned as a closer investigation in each case was

was considered to be
necessary only the
case of the L M High
school was urgently
pressed upon Govt
notice and it will accordingly
be disposed of herewith,
the cases of the other two schools
being reserved for consideration
in future

2. The DPI recommended
last year that an increase of
Rs 100 to the present grant of
the L M High School would
greatly relieve that institution
from the financial embarass-
-ments into which it has
been placed ever since plague
made its appearance in Bangalore; at the
~~Govt at the same time was of~~
~~opinion that only an increase~~ that an increase
of Rs 50 would be enough of the
enhanced rates of fees, ++ which
~~granted was~~ were then under the
consideration of Govt, ++ were
sanctioned

3 The object of the school
authorities in seeking for more
aid at the hands of Govt is
to appoint additional teachers
to the present staff, ++ which had
on more than one occasion on after
1898 had to be reduced ++, and to

5 (4) to give more pay to the present teachers

4 The question having been considered in all its aspects, the Govt of H H the Maharaja are of opinion that the L N institution which has for more than 30 years been doing good work should not be allowed to continue to live in the unfavourable condition in which it has found itself placed; and having at the same time regard to the fact that the enhanced rates of fees recently sanctioned by Govt for adoption in public schools will also add to the resources of the institution, they are pleased to sanction an increase of Rs 50 a month to the Staff and at present employed here, with effect from the 1st July 1904 The Dy Sl will accordingly include the necessary provision in the budget estimate for

for 1904 - 1905 — 57
